THERACHLOR SMC

Therachlor SMC represents the next generation in swimming pool chlorination technology. A state of the art swimming pool chlorinator that enhances the health of your water whilst automating your sanitation, allowing you peace of mind and free time. With new innovation of Switch Mode power supply technology the Therachlor is also energy efficient saving you money and reducing your carbon footprint.

Therachlor's sleek contemporary design eliminates the need for space within the filter box and it's fixed mounting bracket makes installation easy.

You can set this chlorinator to cater to your every need and relax in knowing your pool will remain crystal clear all year round.

FEATURES AND BENEFITS

- Operates at low TDS of 4000 for increased bather comfort
- Compatible with all Salt and Mineral pools
- Includes low mineral and salt alarms
- Digital 24-hour timer with multiple timing set points and output control from 10% - 100%
- Switch Mode power supply for greater energy efficiency
- Switch Mode power supply providing greater cell output per cm²
- Switch Mode power supply significantly reduces internal heating of the chlorinator which provides longevity of all internal components
- Backlit LCD screen with digital interface with simple software navigation menu
- Reverse polarity cell for automatic cell cleaning
- Slimline design of power pack for space saving in the plant room
- Rubber inserts moulded onto the cell head makes removal of cell very easy
- Transparent cell housing for easy visual access into the cell itself
- Innovative internal cell design improving water hydrodynamics over the electrodes
- Grade 1 Titanium electrodes for increased cell lifespan
- Single button Shock feature with the option of selecting running time settings from 1hr – 24hrs.
